

DR. BRADLEY BENGTON

BENGTON CENTER FOR AESTHETICS AND PLASTIC SURGERY
GRAND RAPIDS, MICHIGAN

American Board of Plastic Surgery

DESCRIBE YOUR OFFICE.

The office was designed by a residential builder and creative design team to establish a space that is inviting and warm, complete with a reading nook and fireplace. Patients are greeted by a concierge, as if they're entering a hotel or a cozy residence, and directed to our skin-care, injectable or plastic surgery center. It's our utmost goal to make our patients feel welcomed and not intimidated.

HOW DO YOU HELP PATIENTS SELECT A PROCEDURE?

We offer our patients a problem/concern-focused approach: We inform them of the options and the potential outcomes matching with their expectations and lifestyle to help them choose the best procedure for their needs and concerns.

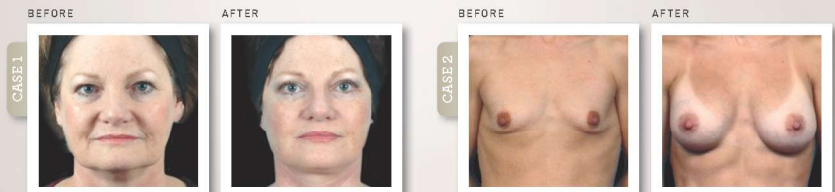

WHAT DO YOU LOVE MOST ABOUT YOUR JOB?

I'm passionate about bringing innovation and art to the practice of plastic surgery. I focus on developing new techniques and procedures to constantly raise the bar and deliver the best patient outcomes I can.

A REPUTATION FOR REVISION EXPERTISE

Dr. Bengton believes that breast augmentation and enhancement surgery is a highly personal decision, so he works closely with each patient to tailor their procedure to their desired outcome. Having performed nearly 3,000 augmentations in 25 years, Dr. Bengton is a leader in his field, educating his fellow physicians and investigating new technological advancements. His practice is one of the largest revisional breast practices in the country dealing with complex complications, thanks to his industry-respected skill in the use of new surgical scaffolds and tissues that provide internal support for breast augmentation and secondary revisional surgery.

Also Pictured: Ryan Mitchell, MD, FRCSC

RESTORING YOUTH

Dr. Bengton performed a facelift, necklift and upper lip lift, plus Belotero® and Juvéderm® injections, on this 63-year-old patient who worried she looked older than her age.

SHAPING THE BREAST

Dr. Bengton performed an augmentation with "Gummy Bear" implants for natural, proportional results, despite this patient's minimal volume and tight, constricted breast.

"LIFE IS ALL ABOUT RELATIONSHIPS. OUR FOCUS IS ON THE PATIENT AND MAXIMIZING SAFE OUTCOMES EVERY TIME."

PATIENT SAFETY AND SATISFACTION ARE AT THE CORE OF DR. BRADLEY BENGTON'S PHILOSOPHY, BUT PATIENT RELATIONSHIPS ARE AT ITS HEART. "WE HAVE A VERY UNIQUE PRACTICE THAT IS TRULY ALL ABOUT THE PATIENT," HE SAYS. AND IN HIS OPINION, THE BEST PATIENT RESULTS COME FROM A LESS-IS-MORE EXPECTATION, SO HE STRIVES FOR A NATURAL, PROPORTIONAL OUTCOME. "THE BEST PLASTIC SURGERY IS WHEN YOU CAN'T TELL PATIENTS HAVE HAD IT," HE SAYS.

WHICH NONINVASIVE TREATMENTS ARE YOU EXCITED TO INCORPORATE?

We have all of the newest nonsurgical treatments and injectables, surgical techniques and skin-care products. We're excited to offer new emerging technologies like laser liposuction, Ultherapy® and CoolSculpting®.

IN WHICH PROCEDURES ARE YOU SEEING AN INFLUX?

We're performing more breast augmentations and breast revisions with SER® Surgical Scaffold. In addition, more minimally invasive techniques in conjunction with facial fillers are on the rise.

DO YOU HAVE ANY HOBBIES OUTSIDE OF WORK?

I love underwater photography, travel and spending time with my family. I've also written books on Civil War medicine. And, I'm involved in medical device development, with eight current medical patents.

TELL US ABOUT YOUR STAFF.

They are by far the most dynamic, engaging, joy-filled and talented staff I have ever worked with. They are extremely caring and focused on the patients and their experiences.
